- Agile Methodologies

Soft Skills:

- Self-Motivated
- Exceptional leadership
- Strong communication
- Meticulous attention to detail

LANGUAGES

Spanish

Native or Bilingual

Enthusiastic Full Stack Web Developer and Scrum Master with a diverse background in music, acting, customer service, and fitness. Proven ability to lead and communicate effectively. Recognized by peers for dynamic energy and an exceptional eye for detail.

PROJECTS

July 2023 - August 2023

Chat 98 *Instant Messaging App*

As the Scrum Master and a key developer, I led the creation of Chat 98, an immersive instant messaging application that leveraged cutting-edge technologies. Using React for dynamic user interfaces, MongoDB for data storage, and Socket.io for real-time communication, I orchestrated the server-side development. I collaborated on crafting React components and introduced a GIF feature for enhanced messaging experiences. Employing Axios, Bcrypt, and Dicebear, along with Material UI for polished styling, I ensured robust security and an engaging user interface.

June 2023 - July 2023

Workout Wizard *Workout Tracking Fullstack App*

As both Scrum Master and a hands-on contributor, I spearheaded the development of Workout Wizard, a comprehensive workout tracking application. By combining Express, Bcrypt, Handlebars, and Sequelize on the backend, and integrating with a MySQL database, I orchestrated seamless data management and user authentication. My responsibilities encompassed the construction of user authentication mechanisms and providing guidance across frontend and backend duties, enabling a cohesive and efficient development process.

May 2023 - June 2023

Travel Buddy *Frontend Navigation App*

In my role as Scrum Master, I led the conceptualization and development of Travel Buddy, a frontend navigation app designed to enhance travel experiences. Through the integration of the Open Weather API and MapBox API, users could effortlessly view weather conditions along specified routes. My influence extended to the UI/UX design, where I guided and assisted in crafting an intuitive and visually appealing interface using Bootstrap. This ensured a user-centric navigation experience that seamlessly merged utility and aesthetics.

EDUCATION

August 2023

Full Stack Web Development Boot Camp Certificate Full Stack Web Development

University of Denver, Denver, CO

A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handlebars.js, and ReactJS.

- Ranked in Top 5% of class
- 4.0 GPA
